Xtreme Series OceanDMX Kit

Take control of your OceanLED Xtreme DMX Series Colours lights via your iOS or Android device.

With the new OceanDMX App for Android and iOS, you have all the control and customisation you need to create any scene or light display you wish, with full control over sensitivity, speed and brightness.

Choose between standard static, cycle or strobe modes. Alternatively, use audio or wave motion modes to control the colour scheme of your choice.

The OceanDMX App has been custom designed with an easy to use menu structure for use solely with the new OceanDMX Controller, which transmits its own unique WiFi network for your mobile device to connect with.

To use audio control, simply attach your vessels sound system to the DMX controller via a standard audio jack. In wave motion mode, you can create a dramatic display whilst on the move upon wave impact.

OceanLED Colours App

• Free download for iOS / Android

• Compatible with OceanLED Xtreme DMX Series XP8 / XP16

• Unlimited Colour Control

• 6 storeable presets

• Strobe / dimming / cycle modes
